Btw, I hope I'm wrong but the fact Marcus told you they sold-out the ICO when they ended up being 20% short, makes me question everything Marcus is telling you, including these issues with HitBTC. Again, I hope I'm wrong but I've got real doubts about his integrity and the stories he's feeding you.

We should talk about that comment...

But as an aside, since HitBTC is not acting accordingly to the release contract, Marcus has just paid the fee to list to get the tokens on 6 more exchanges this week.... it has been completely out of the hands of Marcus and AML Bitcoin

It's disappointing that they're not destroying the 15M coins they couldn't sell in the ICO.

**AML BitCoin Token Sale
Post ICO Announcements & Reminders**

Hello,

Thank you for participating in the AML Token Sale. We have a few post ICO announcements to share.

During the ICO, 60 million tokens were issued. The remaining available tokens will be used for mergers, etc. We are currently not allowing mining for AML Tokens, although mining will be available once AML BitCoins are released.

Our team will announce a digital currency exchange list date soon. We will send you an email with the details once released.

Important Reminders:

1. **Please back up your AML Wallet.** It is the responsibility of Token Holders to back up their own wallets. If you back up your wallet, you can restore it onto another device if needed. Instructions for this can be found [here](#).
2. **Please upgrade your AML Wallet to Version 1.3.0, if you haven't already.** This is a mandatory wallet upgrade. Instructions for this are [here](#).
3. **If you have not added your AML Wallet Address to your [Token Sale](#) account, please do this immediately.**

Quick Instructions to add your AML Wallet Address to your Token Sale account:

Please visit <https://amltoken.com/wallet-userguide/> to download an AML Wallet. Once the AML Wallet has been installed, please follow the below instructions to get your AML Wallet Address.

In your AML Wallet, please click 'File' then 'Receiving Addresses'. Then click 'New' and Create a Label (Which can be anything that you'd like, including your name, etc.). Once you Create a Label and Click 'Ok', you will then see the AML Wallet Address (which will be a long series of characters including letters and numbers).

Once you have your AML Wallet Address, please copy this and paste it in your AML Token Sale account (<https://tokensale.amltoken.com>) in your 'Profile' page, in the 'AML Token Wallet' field.

If you need technical assistance, please email support@amlbitcoin.com.
